To whom it may concern:

Gildart Construction Company

I have personally had the pleasure of working with Jimmy Gildart of Gildart Construction Company, for the past several months on a new construction project, during which time he has provided Weatherford Laboratories with first-rate service and competitive pricing.

The recent project included an expansion of existing space, to which Jimmy remained respectful and courteous of our continued business operations by scheduling and coordinating work ahead of time. He represented WFT Labs with our best interest in mind by keeping us informed and recommending changes based on his experience.

His service continues to be personal, professional and customized to our individual and ever-changing needs. Jimmy has gone above and beyond what I would expect from any construction manager or company. He is truly an expert in his field as shown through his knowledge and guidance on our recent project.

I confidently recommend Jimmy Gildart and look forward to working with him on future build outs and construction projects.

Yours truly,
